

Platform of AMERICAN THIRD POSITION (A3P)

In spite of the dramatic developments taking place in America and around the world, the basic ideas and beliefs of the A3P platform are enduring and unchanging. The principles we espouse are based on common sense and what is right for America and can be applied to any and all problems and crises.

- Repeal U.S. participation in NAFTA, GATT and the WTO, end outsourcing, and protect American jobs and industries.
- Balance the federal budget every year, no exceptions.
- Abolish the federal income tax, to be replaced with tariffs and a consumption tax of no more than 8%.
- End all immigration from the Third World, construct a security fence along the entire Mexican border to stop the invasion of America, and deport all illegal immigrants back to their place of origin.
- No gun control legislation. All law abiding Americans have the inalienable right to protect their property, and to be able to defend against governmental tyranny.

- Greatly reduce the size of the federal government, ending the permanent welfare/warfare state by restricting the federal government only to those powers granted it by the Constitution, and returning power to the people at the local and state levels.
- Support private schools and home schooling, and return control of public schools to local communities.
- Return to a strengthened traditional family unit as the norm for society, rejecting homosexuality and all other types of so-called “alternative lifestyles” that are being promoted by the government-regulated corporate media.
- Reject liberalism and neo-conservatism--also known as “political correctness” and Cultural Marxism--as un-American, totalitarian ideologies worthy of the old USSR and Nazi Germany, but not worthy in a free country.
- Return to Americans their traditional right of freedom of association, including voluntary racial separation; the abolishment of all forms of government-mandated and corporate-mandated racial discrimination, such as affirmative action, quotas, and all forms of “racial sensitivity training.”
- Allow Americans freedom of choice in all matters concerning health and medical treatments.

- Abortion must be a states’ rights issue decided by the people and legislatures of each state rather than by a Supreme Court which acts too often as an unelected legislative body.
- Dismantle the federal government’s police state spying apparatus, end all DUI roadblocks and other totalitarian policies and give back to Americans their privacy rights.
- Create a clean environment through a balanced approach that does not hurt the free enterprise system. Individuals, businesses and industry should be encouraged to use abundant, non-polluting energy sources, such as solar energy.
- Greatly reduce foreign aid.
- Allow self-determination for all peoples and nations, while opposing the exploitation or oppression of any country or group of people.
- Terminate NATO and substantially reduce the United States’ worldwide imperial military empire of over 700 overseas bases with troops permanently stationed in dozens of countries, end internal meddling in the affairs of other nations, while maintaining a strong military for legitimate defensive purposes.

COPY AND DISTRIBUTE!

- Withdraw from the United Nations and end the Imperial Global American Empire that is supported by both Democrats and Republicans. America needs a government that will look out for America and Americans rather than being servile to Big Business and Israel.
- Get career criminals off the streets permanently. Everyone has the right to be anywhere at any time of day and be safe.
- Have equal ballot access laws for all political parties, and return to the paper ballot in elections in order to cut down on election fraud and manipulation.
- Begin a renewed commitment to space exploration as a healthy expression of man's basic need to discover and explore.

If you find yourself agreeing with all or most of the positions taken by American Third Position, then congratulations! You are one of a growing number of Americans who find that their beliefs are no longer represented by the Democrats and Republicans. America has rotted from the top down, in great part because it suffers from a closed two-party monopoly. Join us if you want to see the country we love liberated from the yoke of those who have exploited and plundered it for their own gain.

American Third Position

PLATFORM

Have you had enough of the Democrats and Republicans yet? Why are things always going from bad to worse? Because working and middle class Americans are not being represented by either of the two nearly identical monopoly parties, and haven't been for a long time.

The Democrats and Republicans are controlled by corporate interests and by the Israeli Lobby. Read the Platform of American Third Position (A3P), a new political party, and join with us in taking back our country!
