Ethics for thee but not for me

The heading and sub-heading from *The Jewish Forward* say it all.

'Jews Unite Behind Push for Immigration Reform': Ethics and Self-Interest Drive Unusual Nationwide Effort'*

Well whatever about ethics, self-interest certainly. Because - provided they manage to get away with it - a mongrelised dumbed-down America will surely strengthen the relative position of Jews. Those pesky Whites who created the greatest civilisations the world has ever seen will have become deracinated and marginalised. No longer real competitors. This of course begs the question as to whether the resultant society, which will inevitably resemble the likes of Brazil or Mexico today, will make the effort ultimately worthwhile. For sure their dusky citizens won't be as accommodating towards Jews as Americans have been, an accommodation repaid by treachery literally existential in scope.

Meanwhile half way across the globe lies a country closer than the USA to the hearts of those same 'united Jews'. Here they have a dramatically different approach to 'immigration reform'. Israel, according to the **Interior Minister** *'belongs to the white man'*. The horror! The horror! In fact it's a land reserved for an even more specific race. They're now **bringing in DNA testing** to ensure the Jewish racial purity of would-be Russian immigrants. Having already herded their black *Untermenchen* into concentration camps before turving them back to the Dark Continent.

Yet those 'united Jews' seem to have no problem 'ethically' supporting immigration to the US while supporting Israel as it does the polar opposite. The hypocrisy and chutzpah take the breath away. Which brings me back to the question above: Will they get away with it? It seems incredible that they could - that anyone, in fact, could pull off such a blatant scam. But they seem, as of now, to be doing just that.

*Immigration 'reform' = mass Turd World immigration to White lands and only White lands.
